

the moon, though it was six hundred times nearer than mars. Cawley another reporter said it was the inhabitants which was reported by Bennett who said the simplest way was to turn the moon round and find out. One of the earth Herald's astronomers had determined Giardini a new planet. The new planet, Giardini is at a distance of 12,841,248,284,623 metres and 7 decimetres. This planet orbits round the sun in 572 years, 194 days, 12 hours, 43 minutes and 9.9 seconds. When the clock struck twelve, Bennett the director of the earth Herald left the Hall and sat down in a rolling arm chair. In a few minutes, he reached his dining room. Food was supplied to his home through pneumatic tubes which distribute a dishes of thousand types. During his meal, phonotelephatic communication was turned to speak to Edith. Francis Bennett felt tired and went for a bath before going to bed. Therefore humans will achieve maximum heights in the field of Science and Technology.

A day in 2889 of an American Journal

1. This story talks about the people of the twenty ninth century, who live in Fairyland. (The year is 2889, the date 25th July and the place is the office block of the Morning Editor of the Earth Herald.) On that morning Francis Bennett woke up with a bad temper since his wife had been in France for the past eight days and he was feeling lonely. The device, Phonotelephoto when switched on changed the mood of Bennett, since he could speak and see his wife Edith. He went to his mechanized dressing room. Two minutes later, without the help of a male servant, which automatically deposits a person, washes, shaves, shod, dresses and buttons him/her from top to toe. Bennett had gizters hundred reporters who passed on subscribers the news which had come in during the night, from the four quarters of the earth. Bennett questioned one of the ten astronomical reporters Cash about the recent discoveries in the stellar world. Cash replied that it was Phototelegrams from Mercury, Venus and Mars, and nothing from the Jovians since the Jovians signal could not be understood. He added that even results for
